

Why are we switching to automated?

SAFETY

It's much safer for our employees to operate fully automated vehicles.

RELIABLE

In today's workforce, automated trucks are more reliable.

EFFICIENT

Automated trucks can service more homes per day than a 2-person crew.

COST

Automated trucks reduce overall operating costs and help with potential increases to municipalities.

Cart Placement Guidelines

To ensure our trucks can safely collect your trash and recycling, please adhere to the following guidelines.

Avoid placing carts under trees and power lines

Please place all containers no more than 3ft from the road for service with arrows facing towards the street.

Please place your cart out the night before your scheduled collection day

Make sure no cars are parked in front of your containers

For our safety, please keep carts weight under 60lb
